

Overview Connection Possibilities

The following overview shows the various connection possibilities offered by the mounting elements from Schmalz and should help to select the appropriate components for your application. All components of the various product families are grouped together in the overview. Design data and technical data of the mounting elements can be found on the related product pages in this section of the catalog.

MOUNTING SECTION (also suitable for mounting suction cups)

MO-PROF 40x40 1TN

MO-PROF 40x40 3TN

MO-PROF 80x40 2TN

HOLDERS AND CROSS-BEAM CONNECTORS (for spring-mounting of suction cups)

HTR-STA WI

HTR-STA FL

HTR-STS D30

HTR-STS D10/16

SPRING PLUNGERS

FSTE(-HD)(-VG)

FSTA(-HD)(-VG)

FSTI / FSTIm(-VG)

FSTE(-HDB)(-VG)

FLEXIBLE MOUNTINGS FOR USE WITH SPRING PLUNGERS

KGL

FLK

- Fully rotatable
- Available with anti-rotation guard
- Heavy duty (HD) version for short cycle times and rough operating conditions
- For standard applications without swiveling of the loads
- Flexible in all directions
